## PROFILE SUMMARY

I am a recent Computer Science graduate with a strong passion for software development, problem-solving, and network engineering. Throughout my studies, I have gained experience in programming languages such as Python, Java, and JavaScript, as well as hands-on experience with web development, database management, fibre optics cables. I am eager to apply my knowledge and skills to real-world challenges, contribute to project, and continue learning in a dynamic work environment.

## EDUCATION

2019 - 2024

FEDERAL UNIVERSITY OF  
AGRICULTURE, ABEOKUTA.

- B.Sc Computer Sciences
- Second Class upper Division

## SKILLS

- Frontend Web Development
- Networking
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

## LANGUAGES

- English: Fluent
- Yoruba: Fluent

## WORK EXPERIENCE

Information Communication

JUNE, 2023 TO JANUARY,  
2024

Technology Resources

Centre ICTREEC, FUUNAB

IT & Web Development Intern

- Gained hands-on experience in networking, including configuring routers, switches, and troubleshooting connectivity issues.
- Learned fiber optics installation and cabling techniques for efficient data transmission.
- Worked on server management, handling setup, maintenance, and security.
- Explored computer engineering concepts related to hardware troubleshooting and optimization.
- Developed skills in web development, including HTML, CSS, JavaScript, and WordPress.
- Provided IT support, assisting with system troubleshooting and technical queries.
